Stefano Padulosi

RESEARCH PROGRAM ON
Climate Change,
Agriculture and
Food Security

IFAD-EU-CCFAS Project Second Steering Committee Meeting
Biodiversity International, Rome, 17-19 May 2017

General Considerations

1. There is a **great need** for publications/sharing our work. Growing attention for NUS and inter-disciplinary / multi-stakeholder approach we are using. Growing demand for guiding practitioners in projects and NARS, promote scaling up and advocate change through enabling policy;
2. Scientific papers needed as much as **guidelines, manuals**;
3. Publications in **national languages** but also on local languages (if latter available- please provide us PDF for documentation and sharing on website);
4. These give also **visibility** to our Donors (IFAD and EU) which is being demanded.

Guatemala

- Mapping value chain of chaya (Amaya et al)
- Tepary bean cost benefit analysis (Amaya et al)
- Crowd sourcing of tepary bean (Van Etten et al)
- PACS (Drucker et al)
- Policy (Robitaille et al)
- Seasonal hunger and NUS (Robitaille et al)
- Baseline report
- Identification of elements to establish a National Community Seed Bank Network and to strength Banks already established.
- Others? Manuals? Guidelines?

India

- Value chains of millets in Madhya Pradesh (Mondal, Roy, King, Mishra, et al)
- 5CAPS-g in Kolli Hills (King, Stoian, et al)
- Seasonal availability of vegetables and fruits in MP and diet (Agrawal, et al)
 - Pamphlets promoting more balanced diets based on results
- Policy analysis with special focus on PDS (King et al)
- Crowd sourcing of millets (Mathur, Mondal, Roy, Van Etten et al)
- Scenario modelling of millets and nutrition under climate change (Rose et al)
- Baseline report
- Others? Manuals? Guidelines?

Mali

- Value chains of fonio and Bambara groundnut and *Corchorus* (Mbosso et al)
- Links between diet diversity and production system diversity (Meldrum, Lochetti, Raneri, Koreissi, Sibide, et al.)
- Seasonal availability and resilience of food groups (Lochetti, Mijatovic, et al)
 - Pamphlets promoting more balanced diets based on results
- Policy analysis (Coulibaly, Sidibe, Tajiona, et al)
- Fonio and Bambara groundnut promotion in Sikasso & Segou (Sidibe, Coulibaly, et al)
- Baseline report
- Others? Manuals? Guidelines?

Global

In press

- Leveraging agrobiodiversity to create sustainable food systems for healthier diets- UNSCN NEWS 42 (Kennedy et al.)
- Horticultural biodiversity to attain sustainable food and nutrition security- ISHS Acta Hortic. (Padulosi et al.)
- Neglected no more: leveraging under-utilized crops to address global challenges- Routledge Handbook of Agricultural Biodiversity- (Meldrum & Padulosi)
- International Journal of Agricultural Sustainability- Policy analysis on millet in India (Notaro et al.)

Under preparation

- GFRAS Note for NUS targeting extension agents (Padulosi, et al)
- Neglected and Underutilized Foods: Contributions to Food and Nutrition Security – Elsevier Encycl. of Food Security and Sust. (Padulosi et al.)

**Thank
you!**
